FAQ -- No question is silly – ask us!

How do I find where all the homes are located – what are the addresses?

- Addresses were emailed to all registered Realtors on August 1. Please check your spam folder or [click here for the list of addresses](#) – no problem.

- **For directions, please be sure you've [downloaded the mobile app](#) and reviewed the homes that are participating in Realtor Day that you'd like to tour.** Please "favorite" the homes you want to see on the mobile app to help plan your route!

Where do I park for each house?

Great question! Each house has different parking needs. We promise – they are all worth seeing even if you need to shuttle to see it!

All parking information is listed on the [addresses at-a-glance document](#) and on the mobile app or the Street of Dreams website at StreetofDreamspdx.com. Please select the home you wish to tour, and review the parking instructions available on the page for that home. Most homes have onsite, easy parking at the house address. However, please note that some homes do not have parking right at the house address. You may need to park offsite, but nearby, and either walk or take a quick comfy shuttle to and from the house. All information regarding parking and any shuttle needs for each house is listed on the mobile app and the show website.

Are there restrooms available at each home on the tour?

No. Some homes will have porta-potties available but many will not. Pop by a local restaurant for lunch and handy restrooms. Support local businesses while supporting the tour!

Is there going to be a Realtor Day reception this year?

There will not be a Realtor Day reception this year. However, be on the lookout for some fun bites and sampling throughout the tour at various times!

Are the homes ADA-accessible?

We make our best effort to provide accommodations for all visitors to see the Street of Dreams ON TOUR. Some homes are more accessible than others. Many homes on the tour have multiple floors and require steps to view them. If you have questions about accessibility or would like to request special viewing needs, [please email us](#) here for more information or to schedule private assistance.
