# Open Q&A

# Residential Line Extension Allowance Update

- Updates allowance based on current usage
- Introduces a new higher tier allowance if the primary heat source is electric
  - Standard: \$1,560
  - Electric heat: \$2,360
- Proposed to the PUC
  - Approval expected in August
  - Effective 1/1/21
  - Fall outreach and webinar

# Power Partner

## Online Builder Portal

- Submit and track Requests For Service (RFS)
- Visibility to all team members
- Project status tracking
- Email and text updates
- Communication log
  
- Release schedule
  - Pilot in August
  - September release

The screenshot shows the PowerPartner online builder portal interface. At the top, there is a navigation bar with the PGE logo, the text "PowerPartner", a search icon, the email "jonathan.smith@gmail.com", and a "Sign out" button. Below the navigation bar, there are tabs for "Case List", "Work Orders", "New Request", and "Team Members". The main content area displays a "Work Order" for "M2768819". A progress bar shows five steps: "Job Initiated", "Design and Approval", "Preconstruction and Customer Activities" (current step, marked with a '3'), "Permitting and Scheduling" (marked with a '4'), and "Construction" (marked with a '5'). Below the progress bar, a "Critical Next Task" is highlighted: "Payment of LECA received by PGE", with the responsible party listed as "Customer". A table titled "Preconstruction and Customer Activities Tasks" lists four tasks with their completion status and responsible parties. To the right, a "Team Posts" section shows a post from "Mick (Developer A)" dated February 17, 2020, at 9:09 PM, with the text "hey it looks like we are in some real trouble here Houston" and a link to "Queen Elsa" with the text "I don't think we are in too bad a shape actually. Let's meet on site monday". The interface is decorated with a blue and green forest and wind turbine graphic at the bottom.
